

WHY FINANCE TECHNOLOGY?

Leasing Technology can provide a flexible alternative to paying cash. Technology advances at a rapid speed, and outdated devices can leave you open to security vulnerabilities. By leasing technology through a simple monthly payment, you protect your cash flow and enjoy the flexibility to refresh your technology in a cost-effective way.

BENEFITS OF FINANCING TECHNOLOGY:

▶ NO NEED TO COMPROMISE

Don't delay putting the latest and best equipment/software to work for you. Enjoy productivity improvement with the right tool for the job when you need it.

▶ 100% FINANCING

Leasing offers you the productivity of the equipment/technology you require while managing cash flow needs. Additionally, soft costs such as installation, freight, or equipment set up and service contracts can be included in the monthly payment.

▶ PROVIDES A HEDGE AGAINST INFLATION

Lease payments are fixed and allow you to pay for today's equipment/software with tomorrow's dollars as you earn.

▶ PRESERVES CASH AND CREDIT LINES

Leasing is a proven way to conserve capital while acquiring needed equipment/software. Leasing does not tie up existing credit lines. It allows you to keep capital available for critical, growth driving areas such as personnel, inventory, or advertising.

▶ LOW MONTHLY PAYMENTS

We can customize a lease plan that will fit your budget needs. Payments are often lower than conventional financing.

▶ NO DOWN PAYMENT

Preserve and protect your cash flow by keeping your money available to work for you rather than sinking it into a depreciating asset.

▶ FLEXIBLE LEASE TERMS

Choose from a variety of lease terms to suit your individual needs. We will quote various options so you can make an informed decision.

▶ OPTION TO BUY

If you decide you want to own the equipment/software at the end of the lease, simply pay the amount specified in the terms of the lease.

▶ EASIER BUDGETING

Fixed monthly payments allow you to accurately forecast budgets.
